BRAND GUIDELINES

IDENTITY STANDARDS

01 — INTRODUCTION

Brand Overview

These guidelines define how Valet Property Solutions presents itself across every touchpoint — from business cards and uniforms to digital platforms and client-facing documents. Consistency builds trust, and trust wins contracts. Every team member and vendor should follow these standards.

Professional

We serve commercial clients. Every interaction should reflect the seriousness of a B2B partner, not a side gig.

Reliable

We show up every night. Our brand should communicate the same dependability — clean, consistent, no shortcuts.

Local

We're not a faceless national chain. We're local operators who pick up the phone and solve problems same-day.

02 — LOGO

Primary Logo

The VPS logo combines a **V and P monogram** with a **roofline** and **checkmark**, symbolizing property service and task completion. It is the cornerstone of our visual identity.

Full Color — White Background

White — Dark Background

Grayscale — Print Fallback

Clear Space

Maintain minimum clear space equal to the **height of the "V" stroke** on all sides. No text, graphics, or other logos should enter this zone.

Minimum Size

Print: 1 inch wide minimum | **Digital:** 80px wide minimum | Below these sizes, use the icon mark (VP monogram only, no wordmark).

✓ Do

- ✓ Use the logo on white, black, or dark gray backgrounds
- ✓ Use the white version on any dark background
- ✓ Use the grayscale version for single-color print
- ✓ Keep the logo proportions locked (no stretching)
- ✓ Center the logo when used as a standalone element

✕ Don't

- ✕ Place on busy photos or patterned backgrounds
- ✕ Rotate, skew, or distort the logo
- ✕ Change the green to any other color
- ✕ Add drop shadows, glows, or outlines
- ✕ Rearrange the monogram and wordmark
- ✕ Place on mid-tone backgrounds (use white or dark only)

03 — COLOR PALETTE

Brand Colors

Our palette is built around two primary elements: **VPS Green** (action, growth, reliability) and **Black** (professionalism, authority). Supporting neutrals provide hierarchy and breathing room.

Primary

VPS Green
`#6BBF2E`
Primary accent · CTAs · highlights

VPS Black
`#000000`
Headlines · logo · primary text

Bright Green
`#86E213`
Gradient highlight · digital accent

Deep Green
`#4A8A1E`
Dark mode accent · hover states

Supporting Neutrals

Charcoal
`#1A1A1A`
Dark backgrounds · cards

Gray
`#6B7280`
Body text · secondary info

Light Gray
`#E5E7EB`
Borders · dividers · rules

Off White
`#F9FAFB`
Page backgrounds · sections

✓ Color Usage

✓ Green is for accents, CTAs, and highlights — never large background fills
✓ Black or Charcoal for all major text
✓ White or Off White for page/card backgrounds
✓ Use the green gradient (Bright → VPS → Deep) sparingly for premium feel
✓ Green on black = high contrast, great for digital and uniforms

✕ Color Misuse

✕ Don't use green as a background color for text blocks
✕ Don't use any blues, reds, or off-brand colors
✕ Don't use light green text on white (fails accessibility)
✕ Don't substitute similar greens — use exact hex values
✕ Don't use green and charcoal together with no contrast (too dark)

04 — TYPOGRAPHY

Type System

Plus Jakarta Sans — HEADLINES & DISPLAY

Valet Property Solutions

Premium doorstep service

Weights: **600 Semi** · **700 Bold** · **800 Extra**

Inter — BODY & UI

We provide door-to-door valet trash collection for apartment communities.

Mon–Sat pickup · 9 PM cutoff · Nightly reports · Issue tracking with photos

Weights: **400 Regular** · **500 Medium** · **600 Semi** · **700 Bold**

Type Hierarchy

ELEMENT	FONT	WEIGHT	SIZE
Page Title	Plus Jakarta Sans	800	28–34px
Section Heading	Plus Jakarta Sans	700	18–22px
Subheading	Plus Jakarta Sans	600	13–16px
Body Text	Inter	400	10–14px

Captions / Labels	Inter	600	8–10px
Buttons / CTAs	Plus Jakarta Sans	700	12–14px

✓ Type Rules

- ✓ Use Plus Jakarta Sans for all headlines and display text
- ✓ Use Inter for body copy, labels, and UI elements
- ✓ System fonts (Arial, Helvetica) only as last-resort fallbacks
- ✓ Headlines: tight letter-spacing (-0.02em)

✕ Type Rules

- ✕ Never use decorative, script, or novelty fonts
- ✕ Never use all-caps for body text (headings and labels only)
- ✕ Don't use thin/light weights — minimum 400
- ✕ Don't mix more than these two font families

05 — VOICE & TONE

How We Communicate

Every piece of copy — emails, proposals, social posts, even text messages — should sound like it comes from the same company. We are professional but not corporate, confident but not arrogant.

✓ We Sound Like

- ✓ "We'll have bins delivered and service running within 7 business days."
- ✓ "Your nightly report is ready — 100% completion, zero issues."
- ✓ "Let us know if anything needs attention. We're a call away."
- ✓ "Here's how VPS adds $36,000/year to your property's NOI."

✕ We Don't Sound Like

- ✕ "Hey! We'd LOVE to help with your trash!! 🎉🗑️ "
- ✕ "We are the premier synergistic waste solution provider."
- ✕ "Hmu if you need trash picked up lol"
- ✕ "As the industry-leading valet trash innovator..."

Key Phrases

USE	INSTEAD OF
Valet trash service	Waste management solution
Property partners	Clients / customers
Valets	Workers / trash guys / employees (external)
Doorstep pickup	Door-to-door collection
