# Valet Property Solutions

Business Plan

**All in 1 Realty LLC**

DBA "Valet Property Solutions"

Prepared March 2026

info@valetpropertysolutions.com

## Executive Summary

Valet Property Solutions (VPS) provides doorstep valet trash pickup for apartment communities. Our valets collect trash from outside each resident's door 5–7 nights per week and haul it to the on-site dumpster — a hands-off, premium amenity that residents love and property managers profit from.

Valet trash is the **#1 rated resident amenity** in multifamily housing nationally, yet no established local provider currently serves the Wichita market. National companies focus on larger metros and charge higher rates. VPS fills that gap as a locally owned, competitively priced alternative ready to launch.

**We are seeking $5,000 in startup funding** to purchase equipment and launch marketing. Revenue begins Month 1 of service, with **full repayment projected within 90–120 days** of our first contract.

## How the Business Works

| VPS CHARGES PROPERTY | PROPERTY CHARGES RESIDENT | PROPERTY MANAGER PROFIT |
|---|---|---|
| **$35** | **$50** | **$15** |
| per unit / month | per unit / month | per unit / month — pure margin |

**This is why properties say yes:** we hand them a new revenue stream they didn't have before. Zero out-of-pocket cost — the resident fee covers our charge and generates net profit from day one.

### What VPS Provides

- Doorstep trash pickup 5–7 nights/week
- Background-checked, uniformed valets
- GL insurance with COI for each property
- Collection bin for each unit (included)
- Nightly digital route completion reports
- One local point of contact

## The Market

### Wichita Multifamily Market

**~650,000** metro population · **30,000–40,000+** apartment units · **~800** new units added in 2024 · **92%+** average occupancy

No established local valet trash provider serves this market. National players (Valet Living, Trash Butler) focus on major metros and charge premium rates. The 75–300 unit mid-market properties that make up most of Wichita's inventory are underserved.

### Target Properties

Apartment communities with 75–300+ units in Wichita, Derby, Andover, Maize, and Haysville. **Class B and C properties** are our sweet spot — these managers feel the most pressure to add revenue without raising base rent.

### Competitive Advantage

Local, owner-operated, competitively priced, accountable, and backed by purpose-built technology. Not a national call center.

**WHY PROPERTY MANAGERS SIGN UP — 200-UNIT EXAMPLE**

| | |
|---|---|
| Resident fee collected ($50 × 200 units) | $10,000 /mo |
| VPS service cost ($35 × 200 units) | −$7,000 /mo |
| **Property manager net gain** | **+$3,000 /mo** |
| Annual NOI increase | $36,000 |
| **Estimated property value increase (6% cap rate)** | **+$600,000** |

## What We've Already Built

Before seeking any funding, we've invested significant time building the operational foundation:

- **Legal entity established** — All in 1 Realty LLC is active and registered
- **Professional website live** — Contact form, interactive NOI calculator, service details, full branding
- **Custom management app built & tested** — Route management, employee tracking, auto-generated PDF reports, admin-to-valet messaging, unit-level issue logging with photos
- **Brand identity & pitch materials** complete and print-ready
- **Market research & service agreement template** — Pricing validated, contracts ready

> **This isn't an idea on a napkin.** The infrastructure is built. We need equipment to start serving properties.

## The Ask: $5,000

Here's exactly where every dollar goes:

| Equipment | $2,400 |
|---|---|
| 1,000 collection bins @ $1.50 | **$1,500** |
| 100 extra bins (buffer) | **$150** |
| Utility carts (2–3) | **$350** |
| Gloves, bags, supplies | **$200** |
| Branded bin stickers | **$200** |

| Branding & Marketing | $1,400 |
|---|---|
| Uniform shirts (6–8) | **$200** |
| Business cards | **$40** |
| Printed pitch sheets | **$75** |
| Vehicle magnets | **$125** |
| Google Ads (3 months) | **$450** |
| Social media ads (3 months) | **$350** |
| Door hangers / flyers | **$125** |

| Business Essentials | $1,000 |
|---|---|
| Liability insurance (annual) | **$750** |
| Bonding | **$150** |
| DBA registration | **$30** |
| Domain name | **$15** |
| Contingency | **$55** |

**Total: $4,800** (~$200 buffer) → **Repayment: $5,000 in full** — no equity, no interest

Projected payback: **90–120 days** from first contract

One 150-unit property at $35/unit = **$5,250/month gross**. After labor & ops (~50%), that's ~$2,600/month net. Loan repaid in 2 months. Even a smaller 100-unit first contract ($3,500/month gross) → repayment in 3 months.

## Revenue Projections

### Year 1 — Conservative Ramp

| TIMELINE | PROPERTIES | UNITS | MONTHLY GROSS |
|---|---|---|---|
| Months 1–2 | 0 | 0 | $0 (sales) |
| Month 3 | 1 | 100 | $3,500 |
| Months 4–5 | 2 | 250 | $8,750 |
| Months 6–8 | 3 | 400 | $14,000 |
| Months 9–12 | 4–5 | 600 | $21,000 |
| **Year 1 Gross** | | | **$100K–$140K** |

**Year 1 net (after labor, supplies, insurance): $40K–$60K**

### Year 2 — Growth

8–12 properties · 1,200–1,800 units · $42K–$63K/month gross · Hired route employees (labor ~50%)

**Projected net: $150K–$250K annually**

### Year 3 — Established

15–25 properties · 2,500–4,000 units · Multiple route teams with ops manager

**Projected annual gross: $1M–$1.7M** · Expansion to surrounding Kansas markets

## Operations

### Nightly Routes

Residents place trash in bins by 9 PM. Valets walk every hallway 8 PM–midnight, collecting and hauling to dumpster. Each valet handles 100–150 units (~2 hours). Route completion logged in app with unit-level tracking.

### Scaling

Owner-operated through 200–300 units. First hire at 300+ — part-time evenings, $13–16/hr. Each employee adds ~150 units of capacity.

### Quality Control

Auto-generated nightly reports shareable with PMs. Unit-level issue logging with photos. Direct admin↔valet messaging. Same-day response SLA.

### Risk Mitigation

| | |
|---|---|
| **Slow acquisition** | Direct outreach + real estate network |
| **Valet no-show** | Owner as backup; proactive PM comms |
| **Contract cancellation** | 30-day clause; diversify quickly |
| **National competitor** | Local relationships + lower overhead |
| **Bin damage/theft** | $1.50/bin — 10% annual replacement |

## Team

### Shannon Honse

**Owner / Operator**

All in 1 Realty LLC. Real estate background with local property management relationships. Hands-on operator running initial routes personally.

### Dustin Wohlgemuth

**Operations & Technology**

Built the VPS management app and website. Handles route overflow, tech infrastructure, and operational scaling.

## Bottom Line

Valet Property Solutions is a simple, proven business model entering an underserved local market with a complete operational foundation already built. Valet trash is a **$2B+ national industry**. We're asking for $5,000 to buy equipment and start serving properties.

The money buys bins, branding, and insurance. Revenue starts with the first contract. **Payback happens within 90–120 days.** The infrastructure is built. The market is open. We just need to stock the truck and start knocking on doors.
